

ECWATECH-2018
The 13th International water forum “Water: Ecology and Technology”
25-27 September 2018, Crocus Expo, Moscow

Post release

Supported by

The leading international water show in Eastern Europe – 13th International Water Forum «Water: Ecology and Technology» ECWATECH-2018 took place at Crocus Expo in Moscow, Russia.

The industry's central manufacturers and service providers presented contemporary technologies and solutions for municipal and industrial water supply, water treatment, sewage treatment, water disposal, sludge management, as well as for the construction and operation of pipeline systems.

Since 1994 «Water Ecology and Technology» forum ECWATECH has become the best business platform of the sector as well as the most significant and popular tool for information and new technologies exchange, elaboration of joint solutions and search of new partners. ECWATECH-2018 with more than twenty-year successful history, is the

largest and most authoritative event in Russia dedicated to the utility and industrial water supply, wastewater treatment, pipeline system construction and operation gives specialists from Russia, CIS and Eastern Europe an opportunity to discuss current issues related to the water sector, and the companies – to showcase new developments, products and services. The Organisers believe that the Forum have become a unique platform to show the potential, ideas and technologies within the water industry.

As usual, the water/wastewater issues only will not limit ECWATECH - there are other exhibitions (brands) under ECWATECH forum:

- **CityPipe** «Piping systems for municipal infrastructure: construction, diagnostics, repair and operation»
- **NO-DIG Moscow** - Installation and repair of underground utilities using trenchless technologies
- **BW Show** «Water bottling and bottled waters».

ECWATECH-2018 key figures:

- **486** exhibitors, including **215** - international;
- **25** countries:
Austria, Belarus, Belgium, China, Czech Republic, Finland, France, Germany, Hungary, Israel, Italy, Kazakhstan, Korea, Latvia, Lithuania, Poland, Russia, Spain, Sri Lanka (**NEW**), Switzerland, Taiwan, The Netherlands, Turkey, Ukraine, USA
- **5** national pavilions (China, Czech Rep., Germany, Italy (**NEW**), Switzerland);
- **210** (more than **40%**) first-time exhibitors;
- **10 890** (+**8,1%** to ECWATECH-2016) unique visitors;
- **8** conference program events;
- **650** delegates.

ECWATECH features and novelties

ECWATECH distinguishes not only the scale, but also familiarity with the innovations of the industry. The exhibition will always present the latest innovations of the industry, and leading experts are ready to share effective solutions to topical issues of the sector.

With the presentation of new developments of the engineering and technological center "Mosvodokanal" the first day of the forum opened. The company presented the technology of wastewater treatment using the ANAMMOX process, biological phosphorus removal, water treatment with granulated sludge, purified water biotesting, environmental protection of reservoirs, water intakes from toxic substances and other projects.

The newest software complex WAVE for predicting the operation of ultrafiltration, reverse osmosis and ion exchange systems presented by Dow Water Solutions.

The latest generation of pumps for water and sewage treatment and digital development to increase the operational reliability of the equipment was available at the stand of KSB.

Conference program

An extensive and interesting conference program is a «feature» of ECWATECH. It covers a wide range of issues including institutional issues related to water and sewage system; water resource protection and management; water quality and public health; reliability and safety of water supply and wastewater treatment; pipeline construction and repair.

The 13th international trade fair and congress accompanied by 8 conference program events.

The main events of the Conference Program became international conferences:

- Water supply and wastewater treatment in settlements and industrial enterprises: efficient solutions and technologies
- Trenchless technologies for underground construction and rehabilitation NO-DIG Moscow

ECWATECH-2018 is already sponsored by GRUNDFOS – the world's leading pump manufacture.

ECWATECH-2020 will run September 8-10, 2020 in Moscow, Crocus Expo.
